Ammad Surgical

COMPANY PROFILE

AMMAD SURGICAL is a sister concern for M/S Shot and Vibro Finishing Industry. We have been able to satisfy more than hundred customers in the local market, with our utter commitment to quality we enjoy the reputation for being reliable. Our factory is located in Sialkot and our head office in Lahore.

AMMAD SURGICAL is engaged in the manufacturing and exporting of Surgical, Dental, Veterinary and Beauty Care Instruments and Hollow ware. For the manufacturing of instruments we employ specialized craftsman, deploying them with modern technology and have a professional management team in order to ensure quality production standards. The company prides itself on being able to offer its customers high quality products and reliable services, through effective cost controls, punctual deliveries and investments in technology with such efforts it has managed to provide excellent service to all its customers. Behind the company's success also lies an important contribution of its qualified, experienced management and skilled human resource, which have responded well to the company's goals and missions.

Mission Statement

Our mission at **AMMAD SURGICAL** is to be the quality manufacturers & exporters of surgical, Dental, Veterinary and Beauty care instruments and Hollow ware expanding our operations from local to international markets. We strive to be the best, to be the right partners for our valuable customers, providing them with enhanced quality at compatible prices. We believe that our sheer commitment to our customers will help us to be the leading providers of Surgical, Dental, Veterinary and Beauty Care Instruments and Hollow Ware in the world market.

Quality and Dependability

The well trained and motivated craftsman is our key source of quality assurance. We have installed quality checks after every process the instrument passes through before packaging. We are using German technology to polish the products thus resulting in a much smoother more lasting finish.

AMMAD SURGICAL is in the process of attaining quality certification which guarantees quality control, TQM (Total Quality Management), Kaizen (Continuous Improvement), In time Delivery resulting in customer satisfaction. Plus we are in a continuous process of introducing new products in the company's product portfolio.

Research and Development

Our research and development department welcome all sorts of suggestions and samples from our valuable customers for customized production. Our research and development department takes into account the opinion of foreign qualified and practicing surgeons in order to improve the efficiency of the instrument.

For Further information about our products and offerings please also do visit our website.
